

Jurisdictional Knowledge Standard

This standard evaluates an officer's competence in understanding jurisdictional boundaries and familiarity with the city of Fennimore in accordance with department expectations.

Meets Standards: Yes

The officer understands necessity of determining jurisdictional responsibility before initiating law enforcement activity or responding to complaints. The officer is able to determine what agency is responsible for providing the requested law enforcement services. The officer is able to refer a complainant to the responsible agency if the department has no authority to act.

The officer is constantly aware of location (street/highway, block and direction of travel) and responds to locations and destinations by the most direct route. Officer effectively utilizes FoRS, E911, phone book or other resources to locate call locations with minimal need for dispatch assistance. Officer does not require assistance to locate major streets, intersection and business locations. Officer demonstrates knowledge of routing short cuts as well as tactical response considerations including concealment, cover, low visibility approaches etc. Officer has an excellent working knowledge of the city of Fennimore and is familiar with frequently visited locations and customers

Meets Standards: No

The officer is unaware of importance of jurisdictional responsibility. The officer is unable to determine what agency is responsible for providing the requested law enforcement services. The officer is unable to refer a complainant to the responsible agency when the department has no authority to act.

The officer is not constantly aware of location (street/highway, block and direction of travel) or does not respond to locations and destinations by the most direct route. Officer is unable to utilize FoRS, E911, phone book or other resources to locate call locations with minimal need for dispatch assistance. Officer requires assistance to locate major streets, intersection and business locations. Officer does not demonstrate knowledge of routing short cuts or tactical response considerations including concealment, cover, low visibility approaches etc. Officer has a poor working knowledge of the city of Fennimore and is unfamiliar with frequently visited locations and customers
